TELLS LADIES HERE "WATCH YOUR STEP"
Can not camouflage a touchy corn but says they lift right out
A brisk, lively step is what charms more than a lovely skin, but your high heels have caused corns and you limp a little. That's bad, girls, and you know it. Corns destroy beauty and grace, besides corns can be lifted out with the fingers.
Rid your feet of every corn by asking at any drug store for a quarter of an ounce of freezone. This will cost little but is sufficient to remove every hard or soft corn or callus from one's feet.
A few drops applied directly upon a tender, touchy corn relieves the soreness and soon the entire corn, root and all, lifts right out without pain. This freezone is a gummy substance which dries instantly and simply shrivels up the corn without inflaming or even irritating the surrounding skin.
Women must keep in mind that cornless feet create a youthful step which enhances her attractiveness.

Girls—Do You Know Why Your Hair Is Ugly?
It's amazing how much pretty hair does towards proving the appearance of youth and beauty so much desired by women of all ages. It's really a simple matter for any woman to merit this praise since beautiful hair is only a matter of care.

When your hair becomes faded, dry, streaked and scraggy, when it falls out badly and new hair cannot grow, the roots must be vitalized and properly nourished. To do this quickly, safely and at little expense, there is nothing so effective as Parisian sage (liquid form) which you can get at any drug store or toilet counter.

It's guaranteed to abolish dandruff, stop scalp itch and falling hair, and promote a new growth or money refunded. It's in great demand by discriminating women because it makes the hair so soft, fluffy, lustrous, easy to arrange attractively, and appears heavier than it really is.

A massage with Parisian sage is a real delight—easy to use, not sticky or greasy, and daintily perfumed—an invigorating liquid free from dangerous ingredients, and guaranteed not to color the hair or scalp. If you want good looking hair and plenty of it use Parisian sage. Don't delay—begin tonight—A little attention now insures beautiful hair for years to come. The Lee & Osgood Co. will supply you.

This Period Dining-Room Suite \$169
Including All 9 Pieces

The Carvings Are Especially Attractive In This Particular Design

Most period suites while they follow the general tendencies of the period they represent do not have the detail work seen in this suite. The carvings on the buffet, the shape of the brushed brass drawer pulls, the fluted legs and the fretwork of the china cabinet are all typical of the careful attention to the little things which make this suite remarkably attractive. The illustration faithfully portrays these features but by all means see the rare beauty of the original, now on our floors.

Your Choice of Mahogany or American Walnut

In the finish of this suite will be found the same careful attention to details as in its design. Coming in either Mahogany or American Walnut every piece has the same satin-like finish. The china cabinet is as carefully finished inside as out while even the drawers of the buffet are carefully varnished inside, with the exception of the silver drawer which is velvet-lined. The chairs are upholstered in genuine leather to match the finish.
